

May 7 2015 References request to EPA

1. Callout in introductory sentence of Section 2.1.2.1 Summary of Round 1 Field Activities: The following tasks were carried out according to the Round 1A FSP, which was approved by EPA on May 5, 2002 (EPA 2002a)

This text was taken directly from the Round 1 FSR (03-14-2003), Executive Summary. I cannot find the reference and note that the date is a Sunday, so it appears to be an error in the report.

2. Callout in first sentence of the second paragraph of Section 2.1.2.1: Round 1 field activities included the following tasks, which were approved by EPA in a letter dated September 20, 2002 (EPA 2002b):

This text was also taken directly from the Round 1 FSR (03-14-2003). I cannot find this reference either.

3. Callout in second sentence of the first paragraph of Section 3.1.5.2.4 Suspended Sediment: Sediment in motion can be classified according to its transport mechanism as either bed load (particles that are rolling, sliding, or saltating along the bed) or suspended load (particles moving in the water column) (Biedenham et al. 2006).

Biedenham, David S. et al. 2006. WASH LOAD/BED MATERIAL LOAD CONCEPT IN REGIONAL SEDIMENT MANAGEMENT, PROCEEDINGS of the Eighth Federal Interagency Sedimentation Conference (8thFISC), April2-6, 2006, Reno, NV, USA.
